JUL 22 1980

Docket No. 50-201

MEMORANDUM FOR: Leland C. Rouse, Chief
Advanced Fuel and Spent Fuel Licensing Branch

FROM: Wendy W. Ting
Advanced Fuel and Spent Fuel Licensing Branch

SUBJECT: MEETING SUMMARY

LICENSEES: Nuclear Fuel Services, Inc. (NFS) and
New York State Energy Research and Development
Authority (NYSERDA)
(License No. CSF-1)

FACILITY: Western New York Nuclear Service Center,
West Valley, New York

Purpose: To discuss with the co-licensees for the Western New York
Nuclear Service Center facility indemnification and liability
issues associated with implementation of work by the staff's
contractor, Rockwell Hanford Operations, to inspect and
evaluate the condition of the high level liquid waste storage
system at the facility.

Place and Date: Nuclear Regulatory Commission (NRC), Office of
Nuclear Material Safety and Safeguards, Silver Spring,
Maryland, July 17, 1980

Participants: Please see attached list.

NMSS and ELD staff met with representatives of NFS and New York State ERDA, the co-licensees for the West Valley facility, regarding planned site investigations of the high level waste storage systems by Rockwell-Hanford under NRC contract. The meeting was held following receipt of letters by the co-licensees from the NRC seeking to initiate the onsite activities without further delay. NFS had earlier taken a position that prior to granting permission for Rockwell to conduct activities at West Valley, appropriate indemnification agreements must be developed. The involved parties have agreed to attempt to negotiate an acceptable solution to the indemnification issue. If the matter is not resolved soon, the NRC plans to initiate appropriate enforcement action.
