Gentlemen:

The purpose of this letter is to transmit for your information an increment of the analysis of the effects of natural phenomena relative to your plutonium fabrication operations at Vallecitos, California. The subject study is an analysis, in two parts, of the seismic risk around your Vallecitos, California plant. The NRC staff has endorsed this final version of the review for application in succeeding analyses. However, we will consider challenge of our endorsement when supported by credible technical bases.

Any comments on the enclosed analysis should be addressed to James E. Ayer of this Branch. He will direct resolution of comments and any justifiable revision of the analysis.

Sincerely,

Original signed by
Leland C. Rouse
