IN RESPONSE REFER
TO FOIA-80-344

Dear Mr. Ulin:

This is in further response to your letter dated July 2, 1980, in which you requested, pursuant to the Freedom of Information Act, records pertaining to 36 categories of information with regard to the Washington Public Power Supply System Nuclear Plant No. 2, Richland, Washington.

In our initial response dated July 22, 1980, we provided you with general information as to the existence and the availability of records on the various categories. At that time, we were awaiting a response from NRC's Region V office concerning several outstanding categories. Subsequent to that letter, information about the availability of Region V records on this plant was relayed to you during the series of telephone conversations between Linda Robinson of my staff and Douglas Elston and Carroll Bryan, III. In summary, existing Region V records on this plant are available for public inspection and copying at the NRC Public Document Room (PDR), 1717 H Street, Washington, DC, and the LPDR in Richland, Washington. A copy of the table of contents for Region V Directives (item 2) is being sent directly to you from the Region V office. You may request copies of any Directives in which you are interested directly from the Region V office. It is our understanding that it is your intention to personally visit the PDR to inspect all the records on this plant which are available in the PDR, and possibly to visit the LPDR in Richland.

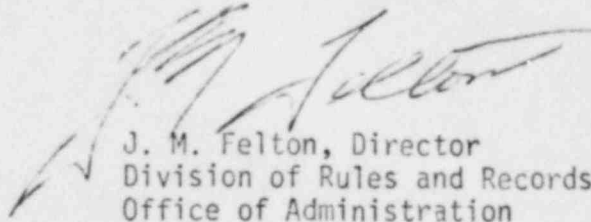

At this time, we are placing three documents pertaining to item 28 in the PDR for your inspection and copying. You may obtain access to these documents by requesting folder FOIA-80-344 under the name of Ulin.

This completes NRC's action on your request. If you have any questions regarding this matter, please call Linda Robinson at (301) 492-8133.

8009110 056

We wish to take this opportunity to express our appreciation for the cooperation we received from Messrs. Elston and Bryan throughout the numerous contacts concerning your request.

Sincerely,

A handwritten signature in cursive script, appearing to read "J. M. Felton".

J. M. Felton, Director
Division of Rules and Records
Office of Administration

THIS IS A FREEDOM OF INFORMATION ACT REQUEST

Director, Office of Administration
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

RE: Washington Public Power Supply System
Nuclear Plant No. 2, Richland, Washington

Gentlemen:

This firm represents the Leckenby Company in litigation involving the above-referenced project. Records described below are requested, on their behalf, pursuant to the Freedom of Information Act, 5 U.S.C. §552, as amended by Pub.L. 93-502, 88 Stat. 1561.

The term "records" used herein, as defined in 10 C.F.R. §9.3(a) (1980), shall mean, "any book, paper, map, photograph, brochure, punch card, magnetic tape, paper tape, sound recording, pamphlet, slide, motion picture or other documentary material regardless of form or characteristics, made by, in the possession of, or under the control of the NRC pursuant to Federal law or in connection with the transaction of public business as evidence of NRC organization, functions, policies, decisions, procedures, operations, programs or other activities."

Be advised that some records subject to this request may have been obtained by your agency prior to the reorganization of the former Atomic Energy Commission into the presently-existing Nuclear Regulatory Commission. To the extent that records requested herein may technically relate to the former, that distinction shall be deemed irrelevant and those records shall nevertheless be considered as a proper subject of this request.
