The U.S. Nuclear Regulatory Commission (NRC) inadvertently printed a copy of the articles in Volume 2 of its "Final Environmental Assessment for Decontamination of the Three Mile Island Unit 2 Reactor Building Atmosphere," a copy of which is enclosed. The articles were sent to NRC by the TMI Legal Fund as an attachment to that organization's comments on NRC's draft Environmental Assessment.

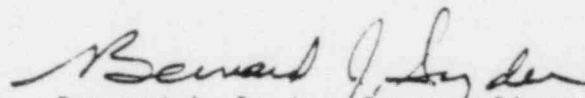

The Final Environmental Assessment will be sold on a not-for-profit basis by the National Technical Information Service, a branch of the U.S. Department of Commerce, and by the U.S. Superintendent of Documents. Both of these agencies require that releases be obtained for copyrighted materials that appear in government reports they sell.

Please return forms by September 19, 1980, to:

Ms. Marilee Duncan  
Three Mile Island Program Office
