Re: In the Matter of General Electric Company,
Docket No. 70-1308

Dear Members of the Atomic Safety
and Licensing Board:

On August 19, 1980, General Electric filed its Motion To Compel Discovery Against the State of Illinois. Pursuant to applicable NRC regulations, any response the State of Illinois wished to file was due on September 3, 1980. Since General Electric has not, as of yet, received any such response, it believes that the record concerning its Motion To Compel is complete and that that motion is ready for ruling by the Board.

Sincerely yours,

Matthew A. Rooney
