Babcock & Wilcox
Nuclear Power Generation Division
Attn: Mr. D. E. Guilbert
Vice President
P. O. Box 1260
Lynchburg, VA 24505

Gentlemen:

Thank you for your letter of August 6, 1980, with an enclosure. Your letter was in response to information requested by Mr. D. F. Fox during our inspection of your facility, July 7-11, 1980.

The requested information was based on your letter of June 24, 1980, that you submitted to us per your commitment in your May 1, 1980 letter. It should be noted that I did not receive the June 24, 1980 letter (a copy of which was enclosed in your August 6, 1980 letter), but Mr. D. F. Fox did receive a carbon copy, which formed the basis of the additional information request.

The information provided in your August 6, 1980 letter, and the enclosed June 24, 1980 letter, related to findings in our 79-04 and 80-01 inspections. We have completed our review of this additional information and have no further questions at this time. We will review the actions you have described relative to our 79-04 and 80-01 inspection findings during a future inspection.

Sincerely,

Uldis Potapovs, Chief
Vendor Inspection Branch
