

SEP 10 1980

MEMORANDUM FOR: Willard B. Brown
 Safeguards Standards Branch
 Office of Standards Development

FROM: F. Schroeder, Acting Director
 Division of Safety Technology

SUBJECT: NRC REVIEW OF DRAFT ANSI/ANS STANDARD 3.3 (N18.17),
 SECURITY FOR NUCLEAR POWER PLANTS

In response to your request, we have reviewed the subject draft standard. We have a problem with the grandfather clause on the criminal records check in Personal Screening. A criminal records check is not required for individuals who were employed by the owner organization or contractor uninterrupted for the time periods indicated (2 years or 5 years). From past experience, a criminal records check is one of the most valued investigative tools.

We have no other comments on the draft standard.

We recommend approval with comment¹⁾

Original Signed by
 Frank Schroeder.

Frank Schroeder, Acting Director
 Division of Safety Technology
