Gentlemen:

As previously discussed with members of your staff, the Babcock & Wilcox, Commercial Nuclear Fuel Plant is submitting the entire FNMC Plan for your approval. This submittal is the result of an entire rewrite of the Plan which was done for clarification and interpretative purposes and to incorporate a number of administrative type changes. The \$150 administrative licensing fee, as required by 10 CFR 170 was included in our May 1, 1980 FNMC Plan submittal.

The FNMC Plan is submitted as Revision 0 including revised Table of Contents and Page-Date Index as Attachment I to this letter.

Due to the nature of the information expressed, we request that the attachment to this letter be withheld from public disclosure as provided in 10 CFR 2.790(d).

If questions arise during your review, please feel free to contact me at (804) 384-5111, Extension 5211 or J. P. Watters at (804) 384-5111, Extension 5966.
