Dear Sir:

The University of Missouri Research Reactor (MURR) License R-103 Docket 50-186 desires to continue to use Model #D34710-1 shipping container for transportation of MURR fuel elements. We are cooperating with Atomics International (Division of Rockwell, Canoga Park, California) in their application submittal for relicensing of this container. While we recognize Atomics International as the primary user, our facility owns four of these shipping containers and we wish to be listed as a secondary user of these containers.

In the past two years, our facility has received over twelve shipments of fuel elements in these containers with no problems encountered. The renewal
