C. E. MacDonald, Chief  
Transportation Certification Branch  
Division of Fuel Cycle and Material Safety  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Ref: Certificate of Compliance No. 5998

Dear Mr. MacDonald:

The General Electric Company, Vallecitos Nuclear Center (VNC), requests that Certificate of Compliance No. 5998 for the G.E. Model 400 shipping container be modified to read:

(b) Contents

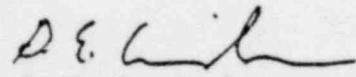

(1) Type and form of material

- (i) Byproduct material meeting special form requirements of 10 CFR 71.4(o); or
- (ii) Solid non-fissile irradiated metal hardware or other solid non-fissile material provided it is contained in metal cladding.

The basis for this amendment is the fact that the requested materials cannot readily disperse under the postulated accident conditions.

A check for \$150.00 for the amendment fee is enclosed.

Sincerely,

  
G. E. Cunningham  
Senior Licensing Engineer
