Daily News
Attn: Copyright Release Office
400 N. Broad Street
Philadelphia, Pennsylvania 19101

Dear Sir:

Would you please sign and return the copyright release form below for the article "Monitoring Isn't Better" from the April 10, 1980, edition of the Daily News. The U.S. Nuclear Regulatory Commission (NRC) inadvertently printed a copy of the article in Volume 2 of its "Final Environmental Assessment for Decontamination of the Three Mile Island Unit 2 Reactor Building Atmosphere," a copy of which is enclosed. The article was sent to NRC by the TMI Legal Fund as an attachment to that organization's comments on NRC's draft Environmental Assessment.

The Final Environmental Assessment will be sold on a not-for-profit basis by the National Technical Information Service, a branch of the U.S. Department of Commerce, and by the U.S. Superintendent of Documents. Both of these agencies require that releases be obtained for copyrighted materials that appear in government reports they sell.

Please return forms by September 19, 1980, to:

Ms. Marilee Duncan
Three Mile Island Program Office
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D. C. 20555

Thank you for your cooperation in helping us to disseminate this important report.

Sincerely,

Bernard J. Snyder, Program Director
Three Mile Island Program Office
Office of Nuclear Reactor Regulation
