Office of Inspection & Enforcement
USNRC
611 Ryan Plaza Drive
Suite 1000
Arlington, Tx. 76012

Dear Sir:

This correspondence is in reference to NRC IE Bulletin
No. 79-19.

Our facility is currently handling the disposal of all
radioactive waste by allowing the material to decay to back-
ground levels and then disposing to normal trash.

If our route of disposal is changed, your office will
be informed immediately and the guidelines set forth in IE
Bulletin No. 79-19 will be rigidly adhered to.

Sincerely,

Michael D. Morris

Michael D. Morris,
