TELEPHONE REPORT
00 SEP 15 12:10

FACILITY Grand Gulf 1 DOCKET NO. 50-416

DATE 9/12/80 TIME 3:30 p.m. LIC. OCC. NO. _____

SUBJECT: CDR - RCI Pipe Support Deficiencies

DESCRIPTION OF OCCURRENCE: _____

Reactor Controls Inc. (RCI) reported to MP&L's A-E that certain pipe supports
were not fabricated and installed in accordance with specifications. These
supports were fabricated on site. The following problems were found;
tube steel substituted for steel angle, hangers welded to imbeds on 3 sides
but the fouthside extended beyond the imbed, several pipe clamps broken away
from the supports and hangers omitted. Corrective action is to be determined
after further investigation. Report due 10/13/80.
