Re: Proposed Amendments to
license 13-00108-05
(Control No. 83057 is pending)

Dear Dr. Mallett

We are requesting an amendment to our license to permit the use of several additional sources at our cyclotron facility as follows:

<u>NUCLIDE</u>	<u>LIMIT</u>	<u>AUTHORIZED USE (these sources)</u>
Uranium - 234	20 microcuries	Check and Calibration sources
Uranium - 236	20 "	or as targets at the Indiana
Plutonium - 240	20 "	University Cyclotron Facility
Plutonium - 242	20 "	

The sources will be handled under the existing broad license with Responsible Investigators designated by the Radiation Safety Committee after review of procedures.

If there are further questions, please contact us.

Very truly yours,

Henry C. Briggs,
Radiation Safety Officer
