Generic Letter 89-07

Director of Nuclear Reactor Regulation
U S Nuclear Regulatory Commission
Attn: Document Control Desk
Washington, DC 20555

PRAIRIE ISLAND NUCLEAR GENERATING PLANT
Docket Nos. 50-282 License Nos. DPR-42
50-306 DPR-60

Response to NRC Generic Letter 89-07
Power Reactor Safeguards Contingency Planning
For Surface Vehicle Bombs

This letter is being provided to confirm, as required by Generic Letter 89-07, that the Prairie Island Safeguards Contingency Plan and implementing procedures have been modified to include short-term actions that could be taken to protect against attempted radiological sabotage involving a land vehicle bomb if such a threat were to materialize.

The Prairie Island Safeguards Contingency Plan and implementing procedures have been revised in accordance with the guidance provided in Generic Letter 89-07. Because the changes to the Safeguards Contingency Plan resulting from Generic Letter 89-07 do not decrease the safeguards effectiveness of the plan, the changes are being implemented without prior NRC approval as allowed by 10 CFR 50.54(p)(2). Pursuant to the requirements of 10 CFR 50.54(p)(2), the revised Safeguards Contingency Plan is attached.

The attached Safeguard Contingency Plan revision contains Safeguards Information and should not be placed in the Public Document Room.
