Subject: PROCUREMENT OF HIGHLY ENRICHED OXYGEN 18

Dear Dr. Moore:

In answer to your letter of February 17, we should like to state that the only Oxygen 18 allocated by the Commission is the material available from the Stuart Oxygen Company. However, Mr. S. David Halpern, Dajac Laboratories (A Division of Monomer-Polymer, Inc.), 511 Lancaster Street, Leominster, Massachusetts, has available Oxygen 18 enriched to approximately 10%. This material is not subject to AEC allocation and is available in minimum units of 10 grams each at \$65.00 per gram of water.

We hope the above information will be of assistance to you, however, if you have further questions be assured of our desire to help you with them.

Very truly yours,

John N. Maddox, Chemist
Allocations Branch
