Dear Mr. Bowyer:

Re: Your DLR:IB:JEM (33121)

Since writing to you on February 8, our Isotopes Committee has had a meeting and selected Mr. Webb, of our Student Health Service, to be a radiation safety officer for our entire campus. He and another member of the committee are now in the process of compiling a manual for overall campus use. When this work is finished, we will send a copy to you and hope that this will meet with your approval so that the three licenses of Indiana University may be combined into one.

Yours very truly,
