Plant Inspection Company
Division of U. S. Testing Company, Inc.

Attention: Mr. William E. Cain
General Manager and Radiation Safety Officer

Gentlemen:

SUBJECT: NRC INSPECTION

This refers to the routine safety inspection conducted by Mr. J. F. Pang of this office on October 20, 1989 of activities authorized by NRC License No. 04-21032-01 and to the discussion of our findings held by Mr. Pang with you at the conclusion of the inspection.

The inspection was an examination of the activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and observations by the inspector.

Based on the results of this inspection, it appears that one of your activities was not conducted in full compliance with NRC requirements, as set forth in the Notice of Violation enclosed as Appendix A to this letter. This item has been categorized into a severity level as described in the NRC Enforcement Policy, 10 CFR Part 2, Appendix C (1989).

Since your letter of June 6, 1989 requested an amendment to obtain approval for a change in ownership and Amendment No. 7 was issued granting approval of the change, no response to the violation as set forth in the enclosed Appendix A is required. We have no further questions at this time, but please be advised that any future similar type of acquisitions of NRC licensed companies must have prior consent of NRC pursuant to 10 CFR 30.34(b).

If you have any questions on this matter or concerning this inspection, please telephone Mr. Pang on 415-943-3700.

Sincerely,
