Gentlemen:

SUBJECT: NOTICE OF TERMINATION OF LICENSE

On August 29, 1988, the Deputy Executive Director for Regional Operations issued you an Order Suspending License (Effective Immediately) and Order to Show Cause why your license should not be revoked based on our inspection findings. You responded on September 23, 1988, seeking to have the Order lifted. As a result of our review of your response, the findings of our investigation into this matter, and our review of your NRC Form 314 dated November 3, 1989, certifying that all materials procured or possessed by you had been transferred to an authorized recipient and requesting termination of your license, we have enclosed a Notice of Termination of License and a license amendment to accomplish this. This action brings NRC's enforcement case regarding this matter to a close. NRC will give no additional consideration to your response to the Order issued in August 1988. The NRC has also determined that no close-out survey is necessary because you possessed only a sealed source which was satisfactorily leak-tested in June 1988 and was transferred to another licensee in September 1988.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed Notice will be placed in the NRC's Public Document Room.

Sincerely,

Robert D. Martin  
Regional Administrator
