Gentlemen:

This refers to your letter dated November 1, 1989, from Mr. Oliver to Mr. A. B. Beach of our office regarding NRC access to offshore platforms. We have reviewed your visitor release form and find it acceptable for the purposes described in your letter.

We appreciate your willingness to assist the Region IV NRC staff in conducting radiation safety inspections on your offshore facilities and look forward to establishing a cooperative relationship with your personnel. Please have your staff contact either myself or Ms. Linda Kasner at (817) 860-8100 to notify NRC of scheduled well logging or radiography operations. Additionally, you may contact either of the above if further response is required of NRC.

Sincerely,
