MEMORANDUM FOR: John F. Stolz, Director
Project Directorate I-4
Division of Reactor Projects - I/II

FROM: D. H. Jaffe, Project Manager
Project Directorate I-4
Division of Reactor Projects - I/II

SUBJECT: NORTHEAST UTILITIES (NEU) CONFIRMATION OF ITS RESPONSE TO NRC
BULLETIN 88-10 AND SUPPLEMENT 1 TO BULLETIN 88-10 (TAC NOS.
71303, 71319 and 71320)

By letters dated March 16 and June 16, 1989, NEU responded to Bulletin 88-10. As a result of Supplement 1 to Bulletin 88-10, corrections to their March 16 and June 16, 1989 submittals were not required as stated in their letter dated October 24, 1989. In its responses, the licensee confirmed that activities required to address the issue of substandard molded case circuit breakers discussed in Bulletin 88-10 will be performed on an acceptable schedule. A detailed technical review of the licensee's responses has not been performed; however, the area may be subject to inspection at a later date. If a subsequent inspection identifies deficiencies in the licensee's actions and responses, this issue will be reopened. Presently we consider this action complete.

By copy of this memorandum, Region I is advised of the licensee's position on this matter.
