Subject: Waterford 3 SES
Docket No. 50-382
License No. NPF-38
Security Measures During Refueling Outage

Dear Mr. Martin:

As per an earlier agreement (prior to our second refueling outage of February 24, 1988) between Mr. R.A. Caldwell of NRC Region IV Staff and our Mr. A.D. Haase, Waterford 3 Superintendent-Nuclear Security, we will reinstitute the same special security measures used during Refueling Outage II. The upcoming refueling outage (Refueling Outage III) is scheduled for September 22, 1989. Chapter Ten of the Louisiana Power & Light Waterford 3 Physical Security Plan allows for special security measures during outages. Our current schedule will require us to implement this temporary change on or near September 22, 1989.

The material enclosed herewith contains Safeguards Information as defined by 10CFR Part 73.21 and its disclosure to unauthorized individuals is prohibited by Section 147 of the Atomic Energy Act of 1985, as amended. Therefore, the enclosed material should not be placed in the Public Document Room.
