Secretary of the Commission
U.S. Nuclear Regulatory Commission
Docketing and Service Branch, Docket #PRM-35-9
Washington D.C. 20555

Dear Mr. Secretary:

I am a practicing nuclear medicine physician in Woodland Hills, California. I am deeply concerned over the revised 10 CFR 35 regulations governing the medical use of byproduct material. These regulations would significantly impact my ability to give good medical care. I urge you to adopt the American College of Nuclear Physicians/Society of Nuclear Medicine Petition for Rulemaking which will change the current restrictive regulations to allow me to practice nuclear medicine for the benefit of my patients.

Thank you for your attention to this matter of critical importance to the future of good nuclear medicine.

Sincerely,

Norman Helman, M.D.
Physician in Charge of Nuclear Medicine
Department of Medical Imaging
