Subject: Submission of Fermi 2 Safeguards
Contingency Plan (Revision 5)

In accordance with 10CFR50.54(p) Detroit Edison submits Fermi 2 Safeguards Contingency Plan (Revision 5). The changes made under this revision do not decrease the safeguards effectiveness of the plan.

Detroit Edison revised the plan in response to Generic Letter 89-07 to include short-term actions that could be taken to protect against attempted radiological sabotage involving a land vehicle bomb. Revision 5 was approved October 24, 1989, and was implemented upon completing the implementing procedure revision and training.

If you have any questions, regarding these changes, please contact Mr. Robert Kelm, Director, Nuclear Security at (313) 586-4949.

Sincerely,

B. Ralph Sylvia
