Dear Administrative Judges:

At the prehearing conference in the above-captioned proceeding held on October 19, 1989, the Board requested the staff to deliver to the Board, and serve on the parties, copies of the five licenses involved in this case. On November 3, 1989, as described in a letter from staff counsel to the Board, the staff responded to that request. The staff had made a preliminary determination that any licensing documents dated prior to 1979 made no reference to any licensing transaction that might be relevant to this proceeding. On its review of the files, however, the staff has identified documents dated in 1978 and 1979 that are incorporated by reference into License No. 37-00030-02 that pertain to planned decontamination activities at the Bloomsburg site and are relevant to the proceedings in this case. Please find enclosed copies of those documents. The staff has also identified an application for an amendment dated April 25, 1969, that may be relevant. The relevant portion of that application is enclosed. (The NRC issued Amendment No. 36 on August 5, 1969, in response to this application.)

The staff had also stated in its November 3 letter that it would serve copies of over-sized drawings on the parties by November 13, 1989. The staff encountered difficulty in copying those drawings and they are being served today in separate containers. The staff apologizes for any inconvenience this may have caused.

Sincerely,

*Robert M. Weisman*
