Dr. Bill M. Morris, Director  
Division of Regulatory Applications  
Office of Nuclear Regulatory Research  
United States Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Dr. Morris:

This letter updates the time estimates for completion of our current work on hot particles provided in Mr. W. Roger Ney's letter to you dated September 1, 1989.

I am pleased to report that the printer's manuscript for our report on hot particles is now being prepared. It is still anticipated that the printing process will require 3 to 4 months to complete. Therefore, it is currently anticipated that the printed report will be available in approximately January 1990. A copy of this report will be available to the NRC staff when the report is in the page proof stage of printing which is currently estimated to be in December 1989.

I hope this information is of assistance to you and your staff for planning purposes.

Sincerely yours,

W.M. Beckner  
Staff Scientist
