

November 30, 1989

Docket No. 50-029

Mr. George Papanic, Jr.
Senior Project Engineer-Licensing
Yankee Atomic Electric Company
580 Main Street
Bolton, Massachusetts 01740-1398

Dear Mr. Papanic:

SUBJECT: YANKEE ROWE CONFIRMATION OF ITS RESPONSE TO NRC BULLETIN 88-10
AND SUPPLEMENT 1 TO BULLETIN 88-10 (TAC 71377)

By letter dated March 31, 1989, Yankee Rowe responded to Bulletin 88-10. As a result of Supplement 1 to Bulletin 88-10, corrections to your March 31, 1989 submittal were required and were forwarded by letter dated November 13, 1989. In your response, you confirmed that activities required to address the issue of substandard molded case circuit breakers discussed in Bulletin 88-10 have been performed. A detailed technical review of your responses has not been performed; however, the area may be subject to inspection at a later date. If a subsequent inspection identifies deficiencies in your actions and responses, this issue will be reopened. Presently we consider this action complete.

By copy of this letter, Region I is advised of your position on this matter.

Sincerely,

Original signed by:

Patrick M. Sears, Project Manager
Project Directorate I-3
Division of Reactor Projects I/II
