Dear Rose Pankratz:

This letter is in reference to the routine safety inspection conducted by Mr. B. A. Parker of the NRC for material license no. 22-26027-01 held by **Harstad Companies** in New Brighton, Minnesota. At the time of this inspection, shipping papers were not located in the vehicle used for transporting the Humboldt Scientific Model 5001 moisture/density gauge. This situation was corrected immediately during the inspection and shipping papers have been carried in the vehicle since this time.

The gauge is presently not being used. If you have any questions, I can be reached at (612)887-6150.

Sincerely,

A handwritten signature in cursive script that reads "Michael O'Donnell".

Michael O'Donnell  
Radiation Safety Officer
