Dear Dr. Colton:

This letter will confirm your conversation with my staff regarding the recently approved Nuclear Regulatory Commission (NRC) License XU08687 for the export of 1,757.58 kilograms of thorium contained in 2,000 kilograms of thorium oxide to Japan. While the date of request for license indicates September 27, 1989, I understand that the application date should have been October 27, 1989; accordingly, we have corrected the date of the request.

I also wish to confirm that, with regard to submitting future export license applications, the enclosed NRC 7 forms should be used.

Sincerely,

A handwritten signature in cursive script, appearing to read "C. N. Smith".
