Ms. Rose Pankratz  
U. S. Nuclear Regulatory Agency  
Region III  
799 Roosevelt Road  
Glen Ellyn, IL 60137

Dear Ms. Pankratz:

Regarding your memo of 11-~~8-89~~ referring to your letter of 9-28-89, the following steps have been, or will be, taken to address the regulatory concerns expressed.

After conversations with the Commission, a physical inventory was performed with all units being located and identified. The leak tests were not performed as yet. Medusa is presently obtaining quotes for the disposal of the five nuclear sources. Part of the disposal process will be the appropriate leak testing.

Should you require additional information regarding the above units, please notify me at the above address or call me at 616-547-9971.

Sincerely,

*Daniel P. Crowley*
