Gentlemen:

This refers to the Enforcement Conference held at Region IV's request in the Region IV office on November 20, 1989. This meeting related to activities authorized by NRC License No. 35-17178-01.

The subjects discussed during the meeting are described in the enclosed Enforcement Conference Summary. As reviewed with you during the enforcement conference, we believe the findings of this inspection to be significant with respect to both the individual violations related to radiation safety and collectively as evidence of management oversight of the radiation safety program. Although we note that you have implemented corrective actions promptly, we wish to emphasize your responsibility to effect the required programmatic changes that will ensure that these problems do not recur. As indicated in the Summary, we will notify you subsequently of the enforcement action to be taken by NRC.

In accordance with Section 2.790 of NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter will be placed in the NRC's Public Document Room.

Should you have any questions concerning this matter, we will be pleased to discuss them with you.

Sincerely,
Original Signed By:
CHARLES L. CAIN *for*
A. Bill Beach, Director
Division of Radiation Safety
and Safeguards
