Docket No. 50-320

GPU Nuclear Corporation
ATTN: Mr. M. B. Roche
Vice President/Director, TMI-2
P. O. Box 480
Middletown, Pennsylvania 17057

Gentlemen:

Subject: Inspection 50-320/89-08

This refers to the routine safety inspection conducted by site inspectors from August 18, to October 20, 1989, of activities authorized by NRC License No. DPR-73 and to discussions of our findings held by Mr. F. Young of our office with you and other members of your staff on October 20, 1989.

We are concerned about the number of recent events which are attributable to human performance causes. We are encouraged that these events are well documented and reported to upper management for review. However, we are concerned that your management controls may not be effective in resolving such human performance problems.

Your cooperation with us is appreciated.

Sincerely,

Original Signed By:

Edward C. Wenzinger, Chief
Project Branch No. 4
Division of Reactor Projects
