EA 89-160

Dennis I. Maehara, M.D., Inc.
1010 South King Street, Suite 701
Honolulu, HI 96814

Attention: Dennis I. Maehara, M.D.

Gentlemen:

SUBJECT: Radiation Safety Training

Thank you for your letters dated August 29 and November 4, 1989 describing the radiation safety topics and study time which made up the training you provided to yourself. You agreed to this additional training during a telephone conference call with members of my staff on August 3, 1989 and during an Enforcement Conference between you and the NRC Region V staff on August 21, 1989. You also agreed not to use the eye applicator until the training was completed and deemed sufficient by the NRC staff.

Based on the topics and study time you described in your November 4 and August 29, 1989 letters, it appears that you have had sufficient training to use the eye applicator safely and in accordance with the procedures referenced in your license. Therefore, you are authorized as of the date of this letter to resume use of the eye applicator in accordance with your license and applicable NRC regulations.

An early reinspection of your licensed activities will be conducted by the NRC staff to further evaluate your radiation safety training and adherence to safety procedures.

If you have questions concerning this matter, please contact this office.

Sincerely,

Original Signed

Ross A. Scarano, Director
Division of Radiation Safety
and Safeguards
