Gentlemen:

SUBJECT: REQUALIFICATION EXAMINATION REPORT

On November 14 and 15, 1989, the NRC administered requalification examinations to employees of your organization who operate your Zion Nuclear Generating Station. At the conclusion of the examination, any generic findings that evolved as a result of the examinations were discussed with those members of your staff identified in the enclosed report.

Due to the small number of examinees, your requalification program has not been assigned an overall program rating in accordance with the criteria of NUREG-1021, ES 601.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosures will be placed in the NRC Public Document Room.

Should you have any questions concerning this examination, please contact us.

Sincerely,

Thomas M. Burdick for

Geoffrey C. Wright, Chief
