RECEIVED

Dear Mr. Hawkins:

Attached is a revised MILDSE run for the Crownpoint facility. The primary difference between this run and the one submitted in April of this year is that the source term for this run was obtained using actual measurements at another HRI *in situ* facility, and the April run used an estimated source term. Therefore, this run is more accurate than the previous one and should be the one utilized during the licensing process.

We hope with this information in hand we can proceed and finalize the licensing of the Churchrock/Crownpoint complex in a timely manner.

Please feel free to contact me with questions pertaining to this matter.

Yours very truly,

[Handwritten Signature]
Mark S. Pelizza
