Gentlemen:

This refers to the activities authorized by License No. 25-26811-01, as they relate to the initiation of activities involving licensed materials. There have been several attempts to contact someone of your staff at (406) 889-3790, which have been unsuccessful. On November 20, 1989, one of the attempts revealed that the number had been disconnected and no forwarding telephone number was available. In your response to this letter please answer the following questions:

1. Have you acquired any byproduct material under your current NRC license?
2. Do you still want to maintain your NRC license?
3. What is your current mailing address?
3. What is your current telephone number?

If you plan to terminate your license, please submit the enclosed NRC Form 314, "Certificate of Disposition of Materials," with a letter requesting termination, to this office.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and your reply will be placed in the Public Document Room.

The responses directed by this letter are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.

Your cooperation is appreciated.

Sincerely,
