

November 7, 1989

James M. Taylor
Acting Executive Director for Operations
USNRC
Washington, DC 20555

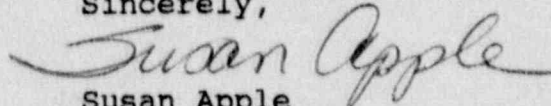

Dear Sir,

I would appreciate being notified as soon as possible on any external communication regarding the license application and license amendment from Calvert Cliffs Nuclear Plant (BG&F) to the NRC on the above ground storage of nuclear waste.

I would also appreciate any literature or explanation you have on the vehicle and procedures the public should follow regarding submitting input to the NRC regarding the above amendment and application.

Your assistance in providing information will be extremely helpful.

Sincerely,

Susan Apple
