Re: NPDES Permit OK0000191
Sequoyah Fuels Corporation

Dear Mr. Knudson:

Attached are the Discharge Monitoring Reports (DMRs) for the period September 1, through September 30, 1989, for the subject permit.

This report is required by and specifically prepared for the U.S. Environmental Protection Agency. It presents the observed results of measurements and analyses required to be performed by EPA. It is not intended as an assertion of the accuracy of any instrument, reading, or analytical result, nor is it an endorsement of the suitability of any analytical or measurement procedure.

Due to inaccurate flow instrumentation at Outfall 001, calculations for flow results and parameter loading results were based upon historical data.

If you have any questions or require further information, please contact me at (918) 489-3231.

Sincerely,

Scott P. Knight
