"Proposed Technical Specification Change
(License Amendment) - Ultimate Heat Sink
(3/4.7.1.5)," dated September 30, 1988

Subject: Technical Specification Bases Change -
Ultimate Heat Sink

In Reference 2, Detroit Edison proposed changes to the Technical Specifications (TS) for the Ultimate Heat Sink. Discussion with the NRC staff reviewer has indicated that a supporting change to the TS Bases, to be issued with the License Amendment for the Reference 2 proposal, would be highly desirable.

Specifically, it was determined that the underlying purpose of Surveillance Requirement 4.7.1.5.b.2 should be reflected in the Bases to ensure that TS users fully understand the purpose of the requirement. Attached is the necessary page change.

If you have any questions, please contact Mr. Glen Ohlemacher at (313) 586-4275.

Sincerely,

Enclosure
