Dear Mr. Matthews:

By letter dated November 27, 1989, you submitted for NRC review and concurrence Revision 1A to the Riverton, Wyoming, Remedial Action Inspection Plan (RAIP). Revision 1A to the Riverton RAIP consisted of the deletion of all references to density and moisture testing and compaction of the subgrade and fill materials. This revision was requested by the State of Wyoming and was determined by DOE not to create a significant impact to the site. The NRC has completed its review of RAIP Revision 1A and have no objection to the proposed changes since tailings have been removed from the Riverton site.

If you have any questions, please contact Sandra Wastler of my staff at FTS 492-0582.

Sincerely,

(SIGNED) PAUL H. LOHAUS
