

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

Dircks 4
Cornell
Kerr
New
Schneider

December 8, 1981

NOTE TO FILES:

Received a telephone call on December 7, 1981 from Congressman John Erlenborn of Illinois on the status of three FOIA requests (FOIA 81-463, 464, and 465) by attorney Harold J. Spelman on behalf of the City of West Chicago relating to the decommissioning of the Kerr-McGee facility in West Chicago.

Called the Congressman back with the status as follows:

FOIA 81-463 - request for information on the health of employees at the Kerr-McGee facility. Ms. Penny Fillner, of Spelman's firm, picked up the documents from Region III on December 1, 1981. DRR is awaiting copies of the documents before closing out request.

FOIA 81-464 - request for the environmental impact statement on the decommissioning. The preliminary draft statement prepared by Argonne is now undergoing staff review, and a decision will be made in the next few days on whether to release or withhold the draft.

FOIA-81-464 - request for copies of licenses issued to Kerr-McGee or its predecessors. Ms. Fillner picked up copies of licenses at Region III on December 1. DRR is awaiting copies of licenses before closing out request.

I told Congressman Erlenborn we would be pleased to send him copies of our response letters to Spelman.

On December 8, I spoke to Suermann, OCA. He said we should provide the responses to him, and he would get them to the Congressman.
