EMERGENCY RESPONSE PROCEDURES

3.2 SELECTMEN

This document provides a checklist procedure for the Selectmen of the Town of Kensington to be used in the event an emergency is declared at Seabrook Station. The Selectmen are responsible for overall command and control of Kensington's emergency response organization. They implement protective actions recommended by the State and activate the Public Alert and Notification System (PANS) when directed by New Hampshire Office of Emergency Management (NHOEM). This step-by-step procedure is written to guide the selectmen. In doubtful situations, common sense should dictate appropriate actions.

Initial notification of a potential or actual emergency condition at Seabrook Station will contain one of the Emergency Classification Levels (ECL): UNUSUAL EVENT, ALERT, SITE AREA EMERGENCY, or GENERAL EMERGENCY. The following procedure checklists for each ECL represent the minimum actions the Selectmen are required to fulfill. Additional instructions, if any, will be provided by NHOEM from the State Emergency Operations Center (EOC) or the Incident Field Office (IFO). The primary means of communication with NHOEM is Emergency Management Radio. Back-up means is commercial telephone.
