EMERGENCY RESPONSE PROCEDURES

3.6 RADEF OFFICER

This document provides a checklist procedure for the RADEF Officer of the Town of Hampton Falls to be used in the event an emergency is declared at Seabrook Station. The RADEF Officer is responsible for issuing radiological monitoring equipment and dosimeters and maintaining emergency worker exposure records. This step-by-step procedure is written to guide the RADEF Officer. In doubtful situations, common sense should dictate appropriate actions.

Initial notification of a potential or actual emergency condition at Seabrook Station will contain one of the Emergency Classification Levels (ECL): UNUSUAL EVENT, ALERT, SITE AREA EMERGENCY, or GENERAL EMERGENCY. The following procedure checklists for each ECL represent the minimum actions the RADEF Officer is required to fulfill. Additional instructions, if any, will be provided by the Selectmen.
