

POOR ORIGINAL

Dear Sirs,

Will you please do me one favor. Check into the 3 mile Island before they release anymore Cripton in the air. My son is 25 yrs old no complainer. he ^{rents} farms a farm on the other side of Martlesville towards Harrisburg. When they released the first cripton in the air he was cultivating his Corn. and he got very sick. then he was just over it when they released the next Cripton. and he got very sick again. I did not know whom to contact until now. I know you cannot live with out electric any more. But you must have more people that complained. Please check into this. Thank you
