CERTIFIED MAIL - RETURN RECEIPT REQUESTED

Mr. John J. Linehan, Section Leader
Uranium Recovery Licensing Branch
Division of Waste Management
US Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Linehan:

Please refer to your letter of July 10, 1980 noting certain noncompliance conditions on source and by-product material license number SUA-1378.

In view of the requirements of license condition 16, our engineering staff is redesigning the ponds contemplated under the license number SUA-1378. A meaningful contingency plan can only be described subsequent to the design of those ponds. It is estimated that the pond redesign can be completed by October 15, 1980 at which time the design of the ponds and a contingency plan will be submitted for your approval.

Would you please amend the referenced license to reflect this revised date for submission of the pond design and contingency plan.

Sincerely,

W. J. Shelley
