The U. S. The issuance of this amendment and related supplement to the Fire Protection Safety Evaluation Report completes the NRC's fire protection review for the Trojan facility. The amendment also corrects a drafting error on Figure 3.1-1 of the Technical Specifications.

The applications for the amendment comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations
