MEMORANDUM FOR: Darrell G. Eisenhut, Director
Division of Licensing

FROM: Frank Schroeder, Acting Director
Division of Safety Technology

SUBJECT: IMPLEMENTATION OF POST-TMI REQUIREMENTS - NUREG-0737

In response to your October 10, 1980 request for review of the proposed revision to the Post-TMI Requirements Clarification Letter, I wish to support the recommendations of Bob Baer in the enclosed note regarding Task II.K.2.13 and Task II.K.3.25. Unless there are technical reasons, not evident from the Clarification Letter package, to justify the inconsistencies noted by Bob, I believe that the final package should be changed. It is unfortunate that these problems were not identified before the September 5, 1980 letter went out, but I don't think that is a reason not to fix them now.

Frank Schroeder, Acting Director
Division of Safety Technology
