Dear James Kennedy -

I wish to comment on the issue of onsite storage of nuclear waste. Today I found out that Jan 31st is the final date for comments so I hope you will accept my comments.

Please extend the date for onsite storage beyond Jan. 1, 1996. I am working with people who are furwently looking into safe ways to store this unspeakably profane poisonous nuclear waste. We musn't close the door in five years. We need to give ourselves more time. So many questions remain unanswered <sup>and</sup> what with the presence of war <sup>and</sup> the demension of the censequences that are likely to arise from the various nations of people <sup>and</sup> weaponry involved it is not likely that we will have our questions answered in five years. So much energy is now channeling toward the war effort now <sup>and</sup> even will be in the aftermath. We may not be able to sort out the problems associated with
