NUCLEAR REGULATORY COMMISSION  
REGION III  
799 ROOSEVELT ROAD  
GLEN ELLYN, ILLINOIS 60137

JUL 10 1980

Docket No. 50-346

Toledo Edison Company  
ATTN: Mr. W. A. Johnson  
President and Chief  
Operating Officer  
Edison Plaza  
300 Madison Avenue  
Toledo, OH 43652

Dear Mr. Johnson:

This refers to the meeting conducted by me, and others of this office on June 4, 1980, at NRC Region III offices with you and others of your staff.

The enclosed copy of our inspection report identifies the areas discussed during the meeting. As summarized at the conclusion of the meeting, the current problems in the implementation of the station's security plan and the personnel overexposure has detracted from the apparent improvement and progress in other problem areas. Implementation of your security plan must be brought into compliance with the requirements. We have provided you a summary of what we believe are the problem areas. Our inspection effort will continue in this area. Future items of noncompliance with the requirements of your security plan could lead to escalated enforcement action.

No items of noncompliance with NRC requirements were identified during the course of this meeting.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter, the enclosures, and your response to this letter will be placed in the NRC's Public Document Room, except as follows. If the enclosures contain information that you or your contractors believe to be proprietary, you must apply in writing to this office, within twenty days of your receipt of this letter, to withhold such information from public disclosure. The application must include a full statement of the reasons for which the information is considered proprietary, and should be prepared so that proprietary information identified in the application is contained in an enclosure to the application.

8009290019

Toledo Edison Company
