Health-Safety and Licensing
P.O. Box 800
Lynchburg, VA 24505

Gentlemen:

This is in response to your letters dated May 1, 1980, and July 15, 1980, which transmitted a total revision to your Fundamental Nuclear Material Control Plan.

We have determined that approving this revision will not endanger the common defense and security and that it is otherwise in the public interest to do so. Therefore, in order to incorporate this plan revision into your license, we are deleting License Conditions 1.1, 2.4, 2.5, 3.1, 4.8, 5.1, 5.2, 5.3, 6.1, 6.2, 7.1, and 8.1 and modifying and/or renumbering the remaining license conditions, as appropriate. In addition, in order to strengthen your approach to tamper-safing, we are adding new License Condition 7.3. This condition was discussed with Bill Powers of your staff on August 20, 1980, and consensual agreement concerning the acceptability and wording was reached. Accordingly, effective immediately, Amendment No. MPP-2 to your License No. SNM-1168 is hereby revised to include the above changes, as reflected in the enclosure to this letter.

We have determined that the attachments to your letters dated May 1, 1980 and July 15, 1980, contain information of a type specified in 10 CFR 2.790(d). Accordingly, pursuant to Section 2.790(d)(1), such information is deemed to be commercial or financial information within the meaning of 10 CFR 9.5(a)(4) and shall be subject to disclosure only in accordance with the provisions of 10 CFR 9.12.

Sincerely,

James G. Partlow, Chief
Material Control and Accountability
Licensing Branch
